Embarrassment of Brokerage Firms and Shady News About Trusts Formed the Excuse-Indianapolis Cereals Are Unchanged.

THE BOND MARKET.

Railway Issues Excited and Weak on Sales of \$1,345,000.

At New York, yesterday, money on call was steady at 225 per cent, the last loan being made at 3, closing offered at 3. Prime mercantile paper, 6408 per cent.

Sterling exchange was strong, with actual business in bankers' bills at \$4.8414 @4.85 for sixty days, and \$4.884 @4.884 for demand.

The New York stock market worked towards a decidedly lower range of prices sgain yesterday. The rallies which occurred at intervals were of short duration, and, as the day grew to a close, the bears became bolder and attacked both the high and low-priced shares with great vigor. In addition to the talk about a most unfavorable crop report the street was flooded with rumors concerning the embarrassment of brokerage concerns there and in Philadelphia, and of the probable appointment of receivers for the Northern Pacific and Erie. None of these rumors were verified, but they were made to do service nevertheless. There was also considerable discussion about the affairs of the General Electric Company, which were emphatically denied by the president, who states in an open communication that the affairs of the company are in a prosperous condition. The strength of sterling exchange as a result of higher rates of discount in the open market in London revived the talk of gold exports, but thus far no engagements for this week's steamers are reported. The sales reached a total of 419,594 shares, against 333,922 Tuesday. The short interest is simply immense, and the borrowing demand is brisk, both for the active shares and specialties. The greatest declines were United States Rubber preferred 17, to 69; common 8, to 35; National Cordage preferred 10, to 40; Sugar pre-ferred 34, to 844; Pullman 7, to 170, and Wheeling & Lake Erie preferred 44, to 484. At the close National Cordage preferred recovered 4, to 44, and the general list was 's to 's per cent. above the lowest. Nevertheless speculation left off feverish and unsettled.

The railway bond market was excited and weak. Sales were \$1,345,000. Erie con-sole declined 2, to 94; Evansville & Terre Haute firsts 8, to 110; Fort Wayne & Chicago thirds 2½, to 127; Ohio Southern fours 2½, to 53½; Toledo & Ohio Central firsts 4, to 104, and Toledo, St. Louis & Kansas City firsts 24, to 684. Govern-ment bonds were lower. State bonds were dull. Closing quotations were:

LCCAL GRAIN AND PRODUCE. Springlike Weather Helped Trade, but Fluc-

tustione in Value Were Few. Trade this week has apparently struck a healthy gait, and among wholesale men but little complaint is heard. The drygoods houses are again having a brisk trade, and pries are steadier in tone. The new wool clip this warmer weather is coming in quite freely, and our quotations cover the range of prices. Wool, to bring 80e per pound, must be clean and bright. The hide market is active, but prices run

slong in the rut of some months past. Tailow and grease are weak at quotations. The more seasonable weather has increased business with the lumber dealers and the hardware men. In the produce market there is little new to note. Vegetables are likely to go lower before the week closes. Strawberries vary in price with the volnme of receipts.

There was a little more snap to the local grain market than on Tuesday, with no material change in prices. Corn and oats are in good request at quotations. Track bids yesterday ruled as follows: Wheat-No. 2 red. 68c; No. 3 red. 63@ 65c; No. 4 red. 50c; rejected, 45@55c; un-

IMPROVED CROP OUTLOOK

But Armour's Expert Sends Word of 80,-000.000 Shortage in Wheat This Year.

The Leading Cereal Sold Down on Better Local and Foreign News, with Corn and Oats Falling Somewhat in Sympathy.

Wright-Cudahy Clique Has Pork in Com-

TRADING AT CHICAGO.

mand, and Shorts Are Suffering. CHICAGO, May 10,-The brilliant weather throughout the West seemed to dazzle, if not demoralize, the bulls to-day. Compared with last night, prices show declines of %c in wheat and corn, 4c in oats, 30c in pork, .05c in lard and .1212c in ribs. There was a marked improvement in the crop outlook during the past twenty-four hours. The rains in continental Europe appeared to have greatly relieved the situation there and there had also been some rains in Kansas. All reports from the Northwest indicate a vast improvement in weather conditions there, with seeding going on rapidly. The Missouri report was also said to be better than expected yesterday, showing a condition of 77, instead of 70, as then reported. All this, taken in connection with the Wall-street demoralization and the general distrust of finances, made the bull crowd nervous and hesitating, and there was free selling and not much demand. Longs made haute to unload, and short selling displayed more activity than for some days, but the bears did not have it all their own way. On the break shorts took profits, and the Michigan report was said to show 10 poin ts decline during the last month. The government report this afternoon was expected to make a very unfavorable showing, as it would only deal with conditions up to May 1. The English crop was in jeopardy, on account of no good rains there for fiftyseven days. Werst, Armonr's expert, who is traveling over the wheat country, was quoted as saying that the Kansas ontlook is not as bad as reported, but that the winter-wheat crop is likely to prove 80,000,-000 bushels less than last year. The market turned very strong during the last hour on the sensationally higher Berlin and Paris cables, which showed advances of 2c to 24c, but in the final trading there was another decline, due to selli g, apparently on account of the good growing weather and the disposition to even up for the Washington crop report.

Corn at the start was weak, numerous selling orders being on hand, largely from the interior. First trades were anywhere from 40 to 1e under the final figures of yesterday. The decline caught a good many stop-lose orders, which only tended to increase the weakness. A better cash demand was reported from the East, and this aided an advance very materially. Prices were put up & @ hc, reacted & @ kc, ruled steady, and at the close had lost its remarks, said that much seed was rotting in the ground, and that nearly all the corn planted three weeks ago would have to be replanted, and that few counties reported any material work done. That helped to re-establish confidence.

The oats market opened considerably weaker, owing to the fine weather. Dreyfue was a heavy buyer on the decline. Counselman & Co. and E. A. Driver were also large buyers. The report that there were large quantities of oats bought for export caused the shorts to take hold, and that, with the decrease of 1,445,000 bushels of cats in Bradstreet's report, caused the market to firm up again, but all the decline was not recovered.

The Wright-Cudahy combination apparently controls the provision market to an extent that makes it all guess-work for others to operate. When the trade started this morning the hogs were posted at 22,cables told of some talk of cholers abroad, and some restrictions placed on The first prices showed a break of 10@25e all around from the Tuesday closing. Then there was some trading in pork by Baldwin, seemingly in the interest of the clique. On the break pork and lard were taken by Wright and Cudsby brokers. There was no attempt to mark up prices, but simply to take all offerings. The volume of trading was light, prices seesawing up and down, closing weak.

Freights were quiet at 11se for wheat and le for corn to Buffalo, and 3c for corn to Kingston. Estimated receipts for tomorrow are: Wheat, 200 cars; corn, 150 cars; oats, 260 cars; hogs, 24,000. The leading futures ranged as follows:

Dry Goods. NEW YORK, May 10 .- The dry-goods market was without any new developments to-day. De-mand, was very quiet. Both buyers and sellers are waiting for the arrival of the most fitting moment to resume active business, or for the period when transactions can no longer be de-layed. It may, accordingly be very quiet for the next thirty days, yet there is nothing in the condition of the market to suggest anything to be gained by delay more than the interest on purchases, as values can be adjusted without much trouble. The jobbing trade was also light, but the fine weather is doing a good deal for the retail branch of the trade, and that is the principal thing needed at present.
